

SECRET

13 December 1982

MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: The DDI Research Program for 1983

1. The introductory and priority material is very good.
2. I'm particularly pleased with the three economic themes but do you have any concern about the signal given by setting economic subjects as the first three priority subjects? We don't want to neglect strategic or military concerns. There are Soviet related priorities and they are primarily economic and intelligence.

William J. Casey
